Task Force on Design and Analysis in Oral Health Research Newark Marriott Airport Hotel, Newark NJ
Reception, Dinner and Board Meeting, May 9, 2011 6:00 – 7:00 PM: Reception 7:00– 9:00 PM: Dinner
Scientific Session, May 10, 2011 Primary Theme: Statistical Modeling & Multilevel Analysis
7:30 - 8:30 AM - Continental Breakfast -
8:30 - 9:30 Dipankar Bandyopadhyay, Medical University of South Carolina "A multivariate spatial latent factor framework for informatively present periodontal data"
<i>9:30 - 10:30</i> Keith Muller, University of Florida "Use of clustered multilevel analysis in behavioral change research"
10:30 - 11:00 - Refreshment Break -
<ul> <li>11:00 - 12:00 Jing Cheng, University of California, San Francisco</li> <li>"Causal modeling in clinical trials and observational studies using a non-parametric empirical likelihood approach"</li> </ul>
12:00 - 1:00 PM - Buffet Luncheon 1:15 - 1:30 PM - Business Meeting
<b>1:30 - 2:30 Brian Schmidt</b> , New York University "Pain research in oral cancer"
<b>2:30 - 3:00</b> Maria Orellana, University of California, San Francisco 2009 Neal Chilton Fellow "Disparities in access to dental care among children and adolescents: A multilevel approach"
3:00 - Adjourn
